what's in

THE PASS

/THĕ pas/

Move or cause to move in a specific direction.

Whether you are going under or over, The Pass is the place to gather and to grow. The overpass pulses through the heart of the project, bringing energy and life to the surrounding area. The Pass positions itself between the historical arts district of NoDa and the up-and-coming Sugar Creek community, providing a place for growth and personality.

The Pass is a mixed use development in the NoDa submarket, which is home to Charlotte's arts community. The Pass will include 260,000+ SF of creative office and retail, along with upscale multifamily units. The project is located directly on the light rail at Sugar Creek Station. The adaptive reuse nature of the project will place an emphasis on preserving the character and architectural features of the original buildings, while thoughtfully modernizing the site.

pass41	53,000 SF of retail & office available now	light rail	direct connectivity via Sugar Creek Station
